

INTRODUCTION

The book is our best friend as they provide solutions to our problems. Reading gives us pleasure but writing a book gives pleasure as well as it improves our skills.

So, ladies and gentlemen here I present my book on “**Print Media**”. Being from the Journalism and Mass Communication fraternity, it gave me a lot of pleasure while writing the book. It brought in a lot of memories and hard work that we did as a student.

This book will give you an insight into the concept of news. In this book, I will be covering types of news, reporting, etc. By the end of the book, future journalists will come to know about various aspects that are associated with Print media.

The students will learn about the types of news that are covered by the print media. What are the duties and responsibilities of reporters and how the selection and editing of news are done?

The book has been written in simple English so that every student can understand the concept and make the best use of the book.

A lot of care has been taken while writing this book. The personal touch has been given so that all the topics are covered under one umbrella.

This book will be a guiding star for the students. Students can learn a lot about different aspects of print media and its evolution with changing times. Students will find it easy while handling the book.

This book will help the students aspiring to be future journalists learn everything about the print media from the beginning till the end.

I have done my best to give the best to the students but as we say no man is perfect in the same way, the scope for correction and up-gradation is always open in the field of writing books.

Any feedback regarding the book is most welcome.

Wishing all the students the best in life. Hope you all enjoy the book as well as the writing.
